SUBJECT: MATHS

TASK 1

The forests have played a crucial role in life on Earth. Forests provide us with essential items like food, shelter and medicine. However humans have exploited forests in a thoughtless manner and are cutting them down rapidly. Make a scrapbook. Cover and decorate it creatively. Do the following activities in the scrapbook :

- 1) Find out the names of any 8 species of animals or plants that are endangered because of deforestation. Paste their pictures.
- 2) Find out the aerial extent of the forest cover in India in different decades (in square km). Use online resources for collecting information. Prepare your data in the given tabular form as shown below.

Year	Areal extent of the forest cover in square km
1935	8,69,012
1945	6,53,220
1955	6,38,460
1965	-----

- 3) Write the number names of all the six digit numbers you get in the data.
- 4) Express the numbers in expanded form.
- 5) Arrange the numbers in ascending and descending order.
- 6) Can you estimate the area of forest cover that will be left in India in 2050 ?
- 7) Suggest two ways of increasing the number of forests on Planet Earth.

TASK 2

MAKE MY TRIP : You are working in Make-my-trip and your friend Ananya wants to plan a trip to Andaman and Nicobar Islands with her family. She resides in Delhi (Family of 4). Her uncle and his family reside in Bangalore (Family of 3)

Prepare an itinerary for her with the help of traveling websites such as make my trip, goibibo etc. on A-3 size sheet and calculate the following:

- 1 Calculate the fare for Ananya's family.
- 2 Calculate the fare for Ananya's uncle's family.
- 3 Calculate the total fare of two families.

TASK 3

Write down tables from 1 to 30 in your class notebook.
