SUBJECT: MATHS

TASK 1

Take an old calendar .Cut out any 6-digits from it and paste it on an A-4 size sheet. Form the smallest and the greatest 6-digit number,using each digit once. Also write their number names on that sheet only.

TASK 2

Every drop of water on the planet is precious. Fresh water is crucial for drinking, washing and growing food. But the increasing population may push the planet towards a thirstier future. It has been predicted that by 2050, half of the World's population may no longer have safe drinking water. To manage competing demands for freshwater we should work with nature rather than against it. (Use A-4 size sheet)

a) Find out the consumption of water per person in your family from your water bill.

b) Suggest any two ways of conserving water so that we have sufficient water by 2050.

c) Draw any 3 solid objects which you use in your home to store water.

TASK 3

Make a list of ingredients used in any one traditional dish of Andaman and Nicobar Islands. Write the

ingredients using units grams(g) and milligrams(mg) . Also paste the picture of the dish.(Use A-3 size sheet)
