"Holiday's are an opportunity to journey within..."

Tourism is currently seeing a boost unlike any other time in history. While this is a good thing, it has taken a toll on our environment. Nature and local communities are sacrificed in the name of profits, just to accommodate the ever-increasing number of tourists every year. That's why sustainable tourism, or ecotourism, should be a top priority for everyone on the planet. Design an e-brochure on behalf of the Government of Lakshadweep islands educating the tourists about Eco-Tourism. Your brochure should be brief, crisp, to the point but at the same time attractive and eye-catching.

- It should cover the following points:
- What is Eco tourism
- Why is it need of the hour
- How it is different from conventional tourism.
- A song or poem on Sustainability.
